

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair has established itself as an interference with the distribution of balanced news. We need to hear the truth not the conjured opinions of those who control Sinclair. I propose that we enact legislation which will commence requiring significant payments to the U.S. Treasury for those who use the airways to foster their own views without paying for the air time. Sinclair has repeatedly abused its use of free air time which questions the advisability of renewing their license. We will no longer view our Sinclair dominated station, WLOS of Asheville NC.
